HALF OF DULL 1930 GONE.  
1,000 COMMUNISTS, 1 WEEPS  
TO TAX THE UNMARRIED

By Arthur Brisbane

THE HALF OF 1930 ends to-  
day, with no conspicuous signs of  
industrial or other improvement.  
The number of unemployed is es-  
timated at 6,000,000, greater than in  
any other nation.

However, President Hoover's var-  
ious commiserations find bright  
spots, here and there. And there is  
comfort in knowing that when you  
get to the bottom of the hill, the  
road must go up. The extraordinary  
thing is that our best minds, so well  
supplied with solemn wisdom in  
prosperity, have not the vaguest  
idea as to what is the matter with  
us.

FIFTEEN HUNDRED Commun-  
ists tried to free India, by way of  
the British consulate in lower New  
York city, on Saturday, throwing  
stones, making speeches. They in-  
cluded a vigorous young girl, who  
shattered a plate glass window, cut-  
ting up her "comrades" with flying  
glass, and a young Harvard student,  
Lawrence D. Cohen. When arrested,  
he told the police, with tears, that  
Harvard professors had told him  
to get out among workers and take  
an interest in their condition.

Trying to free India at long range  
was taking the advice too seriously.  
Young Mr. Cohen typifies  
many that descend from their  
"class" to interest themselves  
in workers, or free some nation  
of which they know little.  
"I came down here to take an  
interest in the workers," said  
Cohen, weeping, "and got beat-  
en up. I want to go to a hospi-  
tal immediately."

THOSE YOUNG COMMUNIST  
boys and girls, and their leaders,  
a majority quite sincere, should travel  
beyond Battery park to the edge of  
the Ganges. They would see the  
burning Ghat, with corpses smoul-  
dering, dead bodies floating on the  
sacred river, pilgrims drinking the  
poisonous water, the streaming  
blood of thousands of goats, poured  
out to please strange gods, an occa-  
sional widow secretly burned  
alive with her old husband's body,  
child wives, meaning and dying in  
child birth, at 13 years of age. A  
visit to India would make them less  
eager to drive out Britain, seeking  
to civilize.

The civilizing is done for a profit  
and the glory of the empire, of  
course. But how did we civilize our  
Indians?

GERMANY PLANS TO tax spin-  
sters and bachelors, to help balance  
the budget. Women and men, un-  
married, according to German  
theory, are not doing their share.  
Unmarried women might reply,  
"Show us a man worth while; other-  
wise we'd rather be taxed."

A TAX on unmarried women un-  
der 45 would be desirable in this  
country if it could drive into mar-  
riage intelligent young women now  
single.

The greatest loss to the nation is  
the loss of millions of superior  
children that would be born if in-  
tellectual young females could be  
persuaded to take men as they are,  
and not expect too much.

THE French say, "At night, all  
cats are gray." After marriage one  
husband is much like another, un-  
less he is a fool, a drunkard, or  
brutal.

BULLETIN

CHICAGO, June 30.—Out-  
rigger a terrific thunder storm and  
overcoming trouble in refueling the  
Hunter brothers fought off  
sleep today to prolong their re-  
cord endurance air plane flight  
over sky harbor at 1:40 p. m.  
(Salem time) today they flew  
through their 453rd hour and  
kept the "City of Chicago"  
noised toward their intended  
goal, the fourth of July and 23-  
days of continuous flying.

(By The Associated Press)

CHICAGO, June 30.—The Hun-  
ter boys—two farmers who turned  
from the plough to the plane—roar-  
ed onward today in triumph  
through the skies, piling more  
hours on the new world's en-  
durance record they established  
early Sunday.

The old mark of "The St. Louis  
Robin," 420 hours, 21 minutes and  
30 seconds, was passed at 6:01:30 a.  
m. (Salem time), yesterday.

Bucking time and tiredness, the  
brothers hope to remain aloft at  
least until July Fourth.  
Although the record set by Dale  
Jackson and Forest O'Brien last  
July 30 in St. Louis was equalled at  
a minute and a half after 5 a. m.  
yesterday, it was necessary to re-  
main aloft an hour longer to be  
clocked officially by W. P. McFar-  
land and Major Luke Christopher,  
of the National Aeronautical as-  
sociation's contest committee.

Cheers Burst Stillness

The cheers of thousands burst  
the suburban Sunday stillness at  
Sky Harbor airport when the plane  
came through the dawn with a new  
record on its wings. Half of this  
crowd had come early and the other  
half stayed late.

Two score army planes—pursuits  
and bombers here for the army  
show—went up in the afternoon in  
salute formation. More than 40-  
600 automobiles honked through  
the heat of the day on the field  
and nearby roads.

There are four of these Hunter  
boys all from "Egypt"—that part of  
southern Illinois named for the  
land of the Nile. John is 27 and  
Kenneth 21; then Albert 33, and  
Walter 24, make up the ground  
crew that had contracted 165 times  
with the plane up to the last re-  
fueling last night.

Their sister, Irene, also a pilot,  
cooks the meals.

From Sparta, Ill., where the Hun-  
ter boys were born to the farm,  
hundreds of congratulatory mes-  
sages poured into the Hunter camp  
at Sky Harbor—and more hun-  
dreds of people chartered busses,  
rode trains and drove automobiles  
to keep Sparta represented at the  
record-breaking.

Messages Sent Aloft

Most of the messages were open-  
ed by the brothers' mother, Mrs.  
Ida Hunter, and then sent aloft.  
Every time we go up, John and  
Kenneth stick their heads out the  
cabin windows and grin from ear  
to ear," said brothers Albert and  
Walter after one of their refueling  
trips yesterday.

The four brothers practiced avi-  
ation in the cow pasture back on  
the farm. They first rode motor-  
cycles, then came the airplane obsession  
and they augmented their farm  
cash by working in coal mines to  
scrape enough together to buy a  
second hand plane. Walter learned  
to fly first and then taught his  
brothers.

The "City of Chicago" is a second-  
hand, two-year-old Stinson  
Detroit cabin monoplane, pow-  
ered by a 300 horsepower Wright  
whirlwind motor. The ship had  
been flown more than 75,000 miles  
previously to the inauspicious be-  
ginning of the present flight 19  
days ago. The refueling plane is  
of the same type.

Candidates Given  
Degrees At Grange

Ten candidates were given the  
first and second degrees at a spe-  
cial meeting of Mt. Nebo grange  
Friday evening at the hall, Salem-  
Lisbon rd.  
The third and fourth degrees  
will be exemplified at a meeting of  
the grange on July 11 by a visiting  
grange.

Escapes Jail

CLEVELAND, June 30.—After  
prying open a lock on an outer  
gate at Cuyahoga county jail, Wil-  
liam J. McMahon, 33, held on  
charges of forgery, was at liberty  
today.

DANGEROUS WORK

THIS remarkable photograph, taken from an airplane that raced along side the City of Chicago, still circling above sky Harbor as John and Kenneth Hunter are setting a new endurance record, shows one of the brothers, stretched out on a catwalk, making adjustments to the engine.

BERMUDA TRIP  
MADE BY FLIERS  
FROM NEW YORK

Non-Stop Jaunt To Tiny  
Speck In Ocean And  
Back Completed

(By The Associated Press)

VALLEY STREAM, N. Y., June  
30.—The monoplane Columbia, ve-  
neran of a transatlantic flight and  
once holder of a world's endurance  
record, had another exploit to her  
credit today, a non-stop flight to  
Bermuda and back.

Roger Q. Williams, a transatlantic  
pilot, and Errol Boyd, steering the  
Columbia by the navigation of  
Harry E. Connor, hopped off from  
Roosevelt field at 4:01 a. m. (E. S. T.)  
yesterday, found the speck of  
an island 800 miles away, circled  
above it in a tropical downpour  
then headed back, landing at  
Curtiss field at 9:03 p. m.

At Hamilton, Bermuda, the fliers  
dropped a sack of mail. In it was  
a cablegram addressed to Dr. James  
A. Kimball, New York meteorologist,  
congratulating him on the accuracy  
of the weather reports which he had  
furnished the fliers before the start.

The flight to the island required  
9 hours and 19 minutes, the plane  
arriving over Hamilton at 1:20 p. m.  
The return flight was made in seven  
hours, 43 minutes.

The fliers said they had no  
trouble in finding the island al-  
though it is a low flying spot in the  
Atlantic and they were troubled  
with fog part of the way.

The feature of the flight that im-  
pressed Williams most was the  
number of sharks that were sighted.  
The purpose of the flight was to  
test the feasibility of commercial  
air travel between New York and the  
winter resort of Bermuda.

Old Realty Transfer  
Recorded In Courts

LISBON, June 30.—When J. P.  
Adams was county auditor he sold  
at a tax sale a tract of land in Sa-  
lem to B. S. Ambler for 72 cents,  
and issued an auditor's deed for the  
property.

This deed was never filed for re-  
cord until today, when it was pre-  
sented at the recorder's office by  
John Kobza, who purchased the  
tract from Ambler for \$17.07.

The transfer was filed when Kob-  
za filed deeds for the transfer of  
the above and other tracts to Fran-  
cis Kobza. Adams gave Ambler his  
deed July 31, 1903.

Men Arrested For  
Illegal Fishing

LISBON, June 30.—Deputy Game  
Warden L. W. Boring arrested  
Arthur Neff, Emil Neff, C. L. Reich  
of Beaver Falls, Pa., and W. G.  
Bortner of East Palestine for illegal  
fishing Saturday afternoon.

They were taken before Justice  
Zimmerman at Lisbon, and after  
each had entered a plea of guilty  
fines of \$25 and costs were assessed.  
An iron spear and hook taken from  
the men by Boring was today for-  
warded to the Fish and Game Di-  
vision of the State Department of  
Agriculture at Columbus.

LAST FRENCH TROOPS  
EVACUATE RHINELAND

Germans To Celebrate At  
Early Hour When  
Soldiers Leave

(By The Associated Press)

MAYENCE, GERMANY, June 30.—  
The last troops of the French  
army of occupation evacuated May-  
ence today at 1:31 p. m.  
The French flag also was taken  
down at dawn from the headquar-  
ters of the Rhineland high com-  
mission at Wiesbaden and from the  
French General military headquar-  
ters here.

But until the town clock marks  
midnight and the church bells  
sound the "liberation" theatrical  
French occupation will continue.  
The German celebration is to start  
at midnight and continue until  
dawn.

There were a half million troops  
along the Rhine after the armis-  
tice, French, Belgian, British, Ital-  
ian and American but as other na-  
tions withdrew and the zones were  
evacuated the army of occupation  
 dwindled to about 25,000 men these  
last few months. Now they are all  
gone.

A word of honor replaced force  
today as guaranty for German  
peace.

Below That For May  
In County

LISBON, June 30.—There were  
606 automobile licenses issued in  
Columbiana county during June  
against a record of 825 for May.  
License fees paid in June totaled  
\$3,716.95 while \$7,161.29 was received  
during June.

Municipal corporations during  
June received \$1,259.62 and the  
county road and bridge repair fund  
was credited with \$667.68. The share  
of the state totaled \$1,789.65. Cities  
and villages were paid as follows:  
East Liverpool 145 licenses

Akron Man Takes  
Palestine Option

LISBON, June 30.—C. E. Siegfried  
of Akron, has obtained an option on  
the real estate, buildings, chatties  
patents and inventions of the Na-  
tional Tire & Rubber Co., at East  
Palestine at a price set at \$45,000,  
the option to expire at noon, Aug. 8.

The option, which has been made  
a matter of record discloses that  
the instrument can be renewed for  
intervals of 30 days upon the pay-  
ment of \$1,000.

It has been indicated that the op-  
tion will be exercised, and that the  
plant will be placed in operation  
early next fall.

SURPLUS SHOWN  
IN TREASURY AT  
CLOSE OF YEAR

\$200,000,000 At Present  
With Prospects Good  
For Next Year

(By The Associated Press)

WASHINGTON, June 30.—The  
close of the fiscal year of 1930 at  
midnight tonight will find a sur-  
plus of approximately \$200,000,000  
in the coffers of the government  
and gloomy predictions prevalent  
for the year of 1931.

At the close of business on Thurs-  
day a total of \$4,151,057,206 had  
been collected and \$3,938,436,837  
spent leaving a favorable margin of  
\$212,520,369. No large payments  
were in sight.

In opposing the enactment of the  
Johnson-Rankin veterans' relief  
bill Secretary Mellon said present  
indications pointed to a deficit a  
year from now. Appropriations for  
the coming year aggregate about  
\$4,560,000,000, a sum greater than  
the estimated government revenue.

The same situation has prevailed  
in the past, however, and the gov-  
ernment, nevertheless, has shown a  
surplus at the close of each fiscal  
year since the budget system was  
instituted.

Of the present surplus, \$100,000-  
000 is the result of foreign debt-  
ors making their June 15 pay-  
ments in cash instead of govern-  
ment securities. A sharp spurt in  
customs receipts just prior to the  
time the Hawley-Smoot act became  
law, also influenced the total.

Peters Appointed  
To Federal Office

W. Edmund of Cleveland spent  
the week-end with his parents, Mr.  
and Mrs. E. M. Peters, of Highland  
ave., before leaving for Washington,  
D. C., to accept an appointment as  
special agent in the department of  
justice.

Peters formerly was connected  
with the legal department of the  
American Telephone & Telegraph  
Co.

Illegal Container  
Results In Arrest

LISBON, June 30.—Thomas Law-  
son of Youngstown, drove into Lis-  
bon Saturday with a truck load of  
potatoes, but the only measures he  
had were unmarked empty bushel  
baskets.

He was followed by County Seal-  
er of Weights and Measures Wil-  
liam H. Barr, and then taken be-  
fore Justice of the Peace M. K.  
Zimmerman, where he was fined \$25  
and costs upon his plea of guilty to  
the use of an illegal container.

Motion Overruled

LISBON, June 30.—Before Judge  
J. D. Barnes ended his assign-  
ment to Columbiana county Saturday  
noon, he overruled a motion for a  
new trial in the damage case filed  
by Henry Holland against the P.  
Milliron Transfer & Storage Co., of  
East Liverpool. Recently when this  
case went to trial in No. 2 court,  
a jury returned a verdict for \$975  
in favor of the plaintiff.

Guilford Work To  
Go Forward

Further indication that  
Guilford lake will be complet-  
ed this year is contained in a  
letter just received by E. H.  
Campbell of Salem from  
Frank G. Adams of Columbus,  
chief of the bureau of inland  
lakes and parks, Ohio division  
of conservation.

Adams' letter advises that  
"the gate for the auxiliary  
drain pipe, located under the  
large fill in the Southerly em-  
bankment of Guilford lake,  
Columbiana county, will be in  
place and in operation on or  
before Sept. 24."

Campbell has been active in  
his endeavors to have the  
state complete the work at  
Guilford and his leadership  
has helped to bring prompter  
action than seemed likely a  
few weeks ago. Recently a  
petition bearing thousands of  
signatures from all parts of  
the county was sent to Gov.  
Cooper, urging action on the  
Guilford project.

LUTHERANS HOLD  
JOINT GATHERING

Leetonia Pastor Explains  
Augsburg Confession  
At Church Here

Lutherans of Salem and towns in  
this district held a mass meeting  
Sunday evening at Emmanuel Luth-  
eran church to celebrate the 400th  
anniversary of the presentation of  
the Augsburg confession.

The meeting was arranged by  
Rev. B. E. Rutzy, pastor of the  
church, and Rev. George D. Keister,  
pastor of Holy Trinity English  
Lutheran church.

Dr. H. C. Brillhart, pastor of St.  
Paul's Lutheran church, at Lee-  
tonia, reviewed the history of the  
Augsburg confession, discussing the  
part Martin Luther had in it, and  
gave incidents in connection with  
the framing of the document.

"Justification by faith through  
grace" was emphasized in the con-  
fession, and Dr. Brillhart expressed  
the opinion that this doctrine was  
just as vital for Christians today as  
it was when the confession was  
framed.

Rev. C. E. Krum, of Columbiana,  
had charge of the altar service. The  
church was filled with people in-  
terested in the celebration. Some  
of them came from Leetonia, Co-  
lumbiana, North Georgetown and  
Greenford.

Man Saves Daughter, But

(By The Associated Press)

A return of warm weather sent  
Ohioans to the beaches and high-  
ways yesterday and 12 persons lost  
their lives in accidents and drown-  
ings.

Three of the drowning victims  
were riding in a canoe which over-  
turned in a swift current in Brush  
Creek, near Peebles, Adams coun-  
ty. They were John Rayburn, 45,  
his son, Billy, four and Lee Cook,  
50. Cook saved his daughter, Mary  
24, the fourth member of the party  
and lost his own life when he went  
back after the other two.

Helen Browning, 10, lost her life  
when she waded beyond her depth  
in the Scioto river near Ports-  
mouth. Charles Burg, 35, West-  
mouth, drowned in similar fashion  
in the Big Miami river near Cin-  
cinnati. The sixth drowning of the  
day was that of William Stark, 50,  
at Edgewater beach, Cleveland.

Boy Drowns In River

Enos Dingey, 13, drowned in Lick-  
ing river at Irville, near Zanesville  
last night, while several compan-  
ions looked on. The companions,  
unable to swim, could not go to the  
rescue of Dingey who had waded  
beyond his depth.

Virgil Cotton, 19, and William  
Deflinger, 42, were killed when their  
automobiles went over embank-  
ments near Cincinnati. Cotton  
lost control of his machine and  
plunged down a 75-foot precipice  
while Deflinger backed too far on a  
street ending in a 50-foot embank-  
ment.

Donzel Garliff, two, was killed  
when the Garliff car skidded in  
gravel and overturned near Ham-  
ilton.

Lillian Haverly, four, was killed  
near his home in Sebring by an  
automobile driven by Marion White  
of Salem.

Mrs. Ida Matton, 30, of Mingo  
Junction, was fatally injured last  
night when she was hit by a train  
while walking on a Pennsylvania  
railroad bridge near that place.  
She was hurled down a 30-foot em-  
bankment into a creek, sustaining  
a fractured skull and an amputat-  
ed right arm.

THE SPIRIT OF ROTARY

Twenty thousand men representing

63 different countries met in

Chicago last week. They assembled

in the name of Rotary International

—a philosophy of living which has

penetrated every civilized nation of

the earth. It was the silver anniversary

of the Rotary movement, which

had its inception in Chicago.

Rotary is a constructive philosophy

which attempts to lessen the

gap between the desire for self

aggrandizement and the impulse to

serve others. "Service Above Self"

is the highly idealized motto to

which Rotarians raise their eyes.

A Rotary club is a representative

cross section of community life. Its

membership comprises only one

man from each business or profes-

sion in the community. Religion and

politics are not considered. Fellow-

ship characterizes Rotary meetings

—not cheap backslapping carried on

in the name of fellowship but sincere

friendship among men who

represent the community's best

citizens.

The true Rotarian endeavors to

apply the principles of Rotary to his

business. He does so silently, with

no hope of recognition. He performs

his charities in the same spirit. The

crippled children's movement, which

is bringing joy to many Rotarians

and to thousands of unfortunate

boys and girls. Yet, there are many

people who have never heard of it—

not even in their own communities.

The Rotarian works for the

extension of right and proper

ship. He is a promoter of good will,

an advocate of international peace

and a comrade of the business and

professional men in every country

of the world. He is not aloof, nor is

he common. He accepts the criticism

directed at him and the Rotary

movement for what it is—a betrayal

of a philosophy of living which has

no place for fellowship. Rotary is at

work every day, building and pre-

serving a sane and purposeful civil-

ization.

THE NATIONAL ORIGINS PLAN

The national origins plan of

immigration restriction, after two

France, Czechoslovakia, Russia and Norway, accounted for 28,143 new Americans. During the last 12 months, visas were issued to 150,000 immigrants.

The national origins plan, as was predicted, has not furthered the cause of international good will between certain countries on the other side of the Atlantic and the United States. It remains to be seen whether changing conditions in international affairs will exaggerate this aspect of the law.

Dr. William J. Mayo, of the Rochester Mayo, believes many physicians die from heart trouble induced by the emotional strain of their work. That makes a bad outlook for the traffic policemen—or aren't their outbursts emotional?

A war was started in Natal when the bridegroom was late for the wedding ceremonies. Well, it was going to get started one way or another. What's the difference?

Ambassador Dawes has left Chicago to return to London. If the world fair program was thoroughly threshed out during his very limited visit, it's either going to be a wagon carnival or the ambassador really is the hustler he is reputed to be.

The fancy colored wine and whisky glasses in the White House have been packed and stored away, which is as it should be. We don't like colored glassware either.

### What Others Say

BOLTERS, SOUTH AND NORTH

Furnifold M. Simmons, dean of

the senate, loses his toga, as punishment for his bolt of the Demo-

cratic party's nominee for president

two years ago. And the skirts are

pretty well greased for the Hefflin

Democratic bolter. Tom Hefflin de-

clined a place on Alabama's primary

ballot, but running somewhat hope-

lessly as an independent.

All of which seems to us right

and proper. A citizen, a politician,

even a senator, has a perfect right

to bolt his party's ticket, or his

party's platform. But, so doing,

he has no business coming right

back at the very next election and

asking the bolted party to nominate

him for office. Otherwise, party

government would soon come to

mean less than it means now under

the direct primary system.

Bolting a party ticket by a man

holding office under the aegis of the

deserted party, is nothing new. It

has been going on since the birth

of parties. But the ethical bolter

makes his desertion permanent, as

did Senator Teller and the other

Silver Republicans in 1896, and as

did former Congressman Victor

Barndock after 1912. Or if a closer

to-home example is needed, take

Judge Frank M. Nye's refusal to

seek Republican renomination as

congressman in 1914, after his bolt

of the Taft ticket in 1912.

The Republican party would not

nominate Roosevelt in 1916, much

as it needed a winner, because he

had bolted the party ticket in 1912.

The Democratic party, in North

Carolina and Alabama, is taking a

like course.

But how about the Republican

senators who bolted their party

ticket two years ago? Sauce for

the southern goose should be sauce

for the northern gander. If it is

right and proper for the Democrats

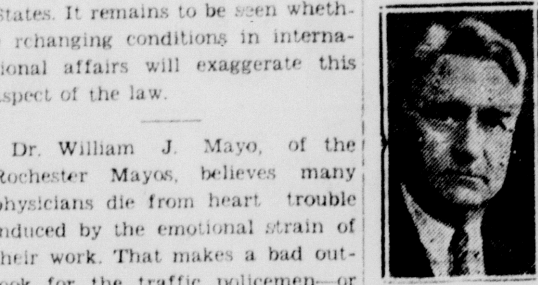

of North Carolina and Alabama to

punish Simmons and Hefflin for

bolting Smith in 1928, is it not also

right and proper for the Republi-

cans of Wisconsin and Nebraska to

### GOITER AND IODINE

Goiter is a disease of the thyroid gland. Almost everybody has heard of the "ductless glands," those mysterious and complex glands of the body which manufacture and utilize very important secretions for the use of the body.

Most of the ductless glands are small, but one of them, the spleen, is considerably larger than the others. Its function seems to be the formation of the white blood cells.

One of the other principal ductless glands is the thyroid gland. This gland is a very important and indispensable part of the body. Its two parts lie on each side of the neck. "Adam's apple," that familiar prominence on the front of the neck. In most persons this gland is so inconspicuous that it serves merely to fill in and round out the contours of the neck.

But occasionally a person finds that the glandular tissues are growing and thickening. It may not be uniform growth, but may be confined to one side of the neck. One part, or lobe, of the gland is involved in such a case.

Another person may find all the parts of the gland gradually but steadily growing. The organ becomes so big that it cannot be hidden by the dress.

The thyroid gland is one of the series of ductless glands. It has no duct outlet for its secretions, or juice, but the secretion is absorbed from the cells of the gland directly into the lymphatic vessels. This secretion is one of the most important of the body because of its influence on the conversion of food into animal tissues. This is the process known as metabolism.

The thyroid secretion increases oxidation. Its principal constituent is iodine. The thyroid gland takes from the blood stream the iodine removed from the food.

There is a substance called "thyroxene" present in this gland which is very necessary to the body's welfare. If there is too much of this secretion the gland swells and the body is over-supplied with iodine, and may even be poisoned by it.

The underlying cause of goiter has been traced to long mental and physical strain. It may be traced to nervous diseases, to appendicitis, tonsillitis, gallstones, and many other diseased conditions of the body.

There is an interesting relation between iodine and the development of goiter. It is a disease common to certain sections of Switzerland, as well as many parts of America.

Now, there is a widespread belief that the lack of iodine in drinking water may be responsible for goiter. This seems like a direct contradiction of the Switzerland idea. Some time the medical profession will know much more about this mysterious working of the thyroid gland.

It would seem, however, that there is importance in the theory that every child should be fed minute quantities of iodine. It should be made certain that the substance is in the system to perform its regulatory work. But in the cure of goiter of long standing I doubt if iodine is of value.

Self-medication is unwise. Any suspicion of goiter should lead to consultation with a reputable doctor. Under proper control, and taken early, I have no doubt that iodine is a valuable remedy in controlling this disease.

### Answers to Health Queries

Mrs. S. Q. — What is the most common cause of aches and pains? My teeth are very bad. Where could I have my teeth attended to without paying a great deal of money?

A—You are probably troubled with rheumatism caused by decaying teeth. You should have them treated by a competent dentist. Go to any one of your large hospitals, where they will suggest a clinic where you may have your teeth repaired for a nominal sum.

P. D. Q. — What causes a red mark in the center of my nose and forehead?

A—What causes a pain on my right side below the belt? My appendix is all right.

A—You may have liver spots due to a more or less poor intestinal elimination.

MRS. N. G. Q.—What do you advise for sciatica?

A—The treatment depends on the cause. Massage, bandaging, electricity, baking, baths, diet and medication all have their share in successful treatment.

MRS. R. Z. Q.—What causes a burning pain in the center of the abdomen, extending over the entire right side and across the back?

A—You may be troubled with a gall bladder condition. It would be wise to consult a physician for an examination. Your diet should be corrected.

A MOTHER, Q.—How much should a woman aged 33, 5 ft. 6 in. all weigh?

Although there may be much incentive and stimulus to initiative and enterprise, according to the leading planetary configurations, yet there may also be stubborn obstacles or rigid congestions may be actual and practical as well as mental, but under the high impetus of Mars trine lunar it is probable all frustrating circumstances will be vanquished. Elderly persons and institutions may be the obstructing factors. Personal matters may be lively and gratifying.

Those whose birthday it is are on the eve of a year calling for all their mental and physical initiative and aggressiveness to combat and overcome treacherous obstacles. It is likely that much practical opposition will be annihilated and progress achieved and the personal relations made pleasant. A child born on this day should be aggressive, capable and courageous and will vanquish many opposing and conflicting forces in life. It should also have a pleasant personal life.

# GUNMEN LOOT WAREHOUSE OF MUCH LIQUOR

Government Property In Chicago Scene Of Armed Raid

VALUE LOOT AT NEAR \$200,000

Watchman Bound, Gagged While Trucks Convey Robbers Loot

(By The Associated Press) CHICAGO, June 30.—Fifteen gunmen held control of a government warehouse for three hours last night and trucked away whiskeys, brandies and alcohol, the value of which may exceed \$200,000.

Included in the liquor stores in a two-story warehouse were 400 cases of bonded whiskey shipped to Chicago from Jacksonville, Fla., and seized by federal agents.

The possibility that the raid on the warehouse last night was by Capone gangsters seeking to recover the seized liquor, is being investigated.

Paul Perry, night watchman, was alone when four men, each carrying a large can, appeared at the entrance. Perry thought they were federal prohibition agents bringing liquor for storage, and he admitted them.

Gun barrels were poked against his side and he was bound, gagged and blindfolded. The gang leaders then admitted the others, and the three-hour job of carrying out the cases of liquor to waiting trucks was begun.

The raid on the warehouse did not end until shortly after one o'clock this morning. At least three truck loads were taken away, a hurried inspection revealed.

Police believe the raid may have been inspired by the desperate plight in which liquor syndicates have found themselves as a result of the recent police shakeup. The police theory is that a syndicate, finding its source of supply from outside Chicago endangered, arranged the raid so as to obtain liquor with which to meet the demands of its trade.

Only a few of the raiders—probably only the four men whom the night watchman admitted—were gangsters, police said. The others being laborers and roustabouts who did the actual work of transferring the liquor from the warehouse to the trucks.

# RACING CAREER COMES TO END

Betsy Ann Will Not Be In Speed Events On Ohio River

CINCINNATI, June 30.—The racing career of the Betsy Ann, historic packet who's green and white prow throbbed up the Mississippi to many championships in the gayer days of "old man river" had been ended today.

Announcement was made by Captain Frederick Way, who was in command Saturday when the Betsy was defeated on the Ohio river here by the Tom Greene, a newer, swifter boat, that his craft would never again engage in competition, for the past two years the Betsy has figured prominently in the three modern packet races staged here—always being a favorite with romantics of the inland waterways.

The Betsy's career as a passenger ship, however, has not ended, she will continue to recall the legends of quainter days on the river, of carpet bags, mint juleps, plaintive plantation songs, faint from the shores at twilight and the old south haven of the Robert E. Lee and the famous Natchez.

The Betsy Ann, built in 1899, will ply between Pittsburgh and Louisville in the future as a passenger boat—short of her speed, but not her tradition.

# SHOT IN FIGHT

# 20 KILLED IN MEXICAN RIOT

Communists Blamed After Fight On Streets Of Torreon

TORREON, MEXICO, June 30.—The correspondent of La Prensa reports that 20 communists and police were killed and eight wounded in a severe encounter in the streets of Matamoros, Coahuila, near here.

The dispatch stated that the Communists had sought permission to parade in protest against the government's arrests of Communists in various parts of Mexico.

Three times refused, they decided to march any way. The police blocked their path. Members of the demonstrators opened fire on the officers.

Arturo Pena, chief of police, the report said, was wounded. He had given orders for a general attack.

Troops were hurried to the scene. The dispatch said they soon restored order.

# OBJECTIONS TO TREATY STATED

Minority Report Filed With Criticism To London Pact

WASHINGTON, June 30.—In a minority report published today, three members of the senate foreign relations committee set forth their objections to the London naval treaty and urged it be rejected.

The dissenting senators were Johnson of California, Moses of New Hampshire, and Robinson of Indiana, the pact was recently approved by the committee by a vote of 16 to four, with Shipstead, Farmer-Labor, Minnesota, casting the fourth negative ballot.

The minority report stressed in particular the contention that the treaty fails to give America equality in sea power with Great Britain, and that it will not affect a saving to the nation's tax payers.

Moses, who is leading a movement to defer consideration until November, attached a personal memorandum to the report in which he said "indecent haste" was being used in obtaining ratification.

The report said the three senators disclaimed militarism and jingoism and that they "have ever been and still are advocates of fair naval limitation and honest naval reduction."

"The minority," it continued, "demanded that no treaty in respect to the United States navy shall be ratified by the senate which is disadvantageous to our country; which precludes an adequate national defense which affects injuriously the naval protection of our enormous and fast-expanding sea commerce; or which destructively deals with our relative position in respect to other nations."

"All these things the London treaty does."

Mr. Hoover is standing firmly up on his intention of calling the special session as soon as the regular session has ended.

## EDUCATORS TURN TOWARD ADULTS

### Children Not Sole Aim Of Education In United States

COLUMBUS, June 30.—The National Education association is preparing to assume the role of a trustee officer to bring half-educated grown-ups back to school.

The general impression that the association is chiefly interested in educating youngsters to be capable men and women was dispelled by E. Ruth Pyrtle, of Lincoln, Neb., president of the organization in an address prepared for the 68th annual convention here today.

The association has its eyes on the adults of the nation, just as much as the children and hope to arrange a country-wide program that will make students of all working men and women, banish illiteracy and carry those who already have been well schooled along to a higher education. Miss Pyrtle said.

"The old theory that people do not learn after 25 has been exploded by years of research and experience," she said, "people can now see richer lives ahead of them, in proportion as we spread the knowledge of actual facts will we add new hope in the lives of men and women and enrich home and community life."

### Today's Pattern

A PERFECT frock for warm weather combines the grace of shoulder caplets with the chic of pointed yoke and skirt details. Another entirely new feature is the introduction of an inverted pleat in the center front of a flared skirt. Note the tiny pin tucks at the back of the neck, so essential to a well fitting frock.

Pattern 1957 may be successfully made of chiffon, georgette, voile or silk crepe. A solid color or a print would be lovely especially in the pastel shades which are so popular this season.

May be ordered only in sizes 16, 18, 20, 24, 26, 28, 30 and 32. Size 16 requires 3 1/2 yards of 39 inch material.

No dressmaking experience is necessary to make this model with our pattern. Yardage for every size, and simple, exact instructions are given.

## HOME-MAKING HELPS

By Wanda Barton

Along a Connecticut road there's a little house which usually makes passing motorists stop with an exclamation of approval. "What a charming little house!" But as a matter of fact it's a quite ordinary house, and quite small and unpretentious. But its owner decided to spruce this spring on new awnings—bright, colorful awnings—but a brilliant contrast with the plain dark shutters. And it gives the house a positively new appearance—a very modest expenditure.

Whether it's a little or large country house—or a city apartment—can be dressed up handsomely by the addition of tasteful awnings and shades. Summery curtains must necessarily be light in texture and the ornate is to be avoided. But it doesn't follow that the windows are to be plain to dullness.

One can keep out the hot noonday sun by cheerful shades and gay awnings—quite as effectively as with the somber hues. Indeed, the old-fashioned, dun-colored awnings are gradually disappearing, since sun-fast fabrics of bright tints are now available.

Awnings come ready-made in a variety of jolly striplings, but for

## Love Paves Way for Tragedy

A woman's overpowering love for her demented husband and a yearning to share his few hours of stolen freedom made possible the tragedy of West Rock Park, near New Haven, Conn. Raymond C. Sparks, World War veteran, escaped from an insane asylum, and as he went on an excursion with his wife and four children, he hurried them to their death from a cliff, later committing suicide. (Left) Sparks as he took his death leap. (Right) Helen, Lorraine and Donald Sparks, (Lower) Mrs. Gertrude Sparks and her husband in happier days.

## BLACKHANDERS SEARCH OBJECT

### Police Give Version Of Murder Of Italian In His Home

DAYTON, June 30.—Blackhanders were sought by police today as the slayers of Joseph Vacciniano, 44, president of the Gem City Window Washing company, whose body was found at his home here last night with four bullet wounds in the head.

Police said Vacciniano's life had been threatened twice by persons believed involved in a blackhand plot.

There was evidence that Vacciniano had first been beaten then with a blunt instrument and then shot to death, probably with pistol equipped with silencers since the slain man's little daughter, alone at home with him during the afternoon, said she had heard nothing.

Vacciniano was lying on a couch when his wife and their eight other children returned home last night. Mrs. Vacciniano thought him asleep and did not discover the murder until she noticed blood on the head when she went to awaken him.

Police did not say whether Vacciniano's enemies were known, but were confident robbery was not the motive of the killers.

## MOVIES

**"THOSE WHO DANCE"**  
At The Grand  
Monte Blue, Lila Lee, Betty Compton and William Boyd, the all-star quartette of talent that heads the case of "Those Who Dance," coming to the Grand theatre tonight, are all noted separately for crook roles.

Not one of them, however, ever played a part even similar to the one he or she portrays in "Those Who Dance." William Beaudine who directed this novel and powerful crook melodrama, saw to that in his selection of the cast.

Blue has a punchy role as a policeman who disguises himself to pose as a gangster "Moll's" sweetheart in order to play a desperate game in the middle of a group when his life is forfeit. Miss Lee is the sweetheart also in the gang under the compulsion of unusual circumstances.

Boyd, the famous stage actor and not the screen "he-man," is an especially sinister villain, and Betty Compton is his girl. As many crook characterizations as even Miss Compton has played, her role in this picture goes entirely outside the nature of any in which she had appeared.

## ZIONISTS SCORE BRITISH POLICY

Mandate In Palestine Is Subject Of Attack In Cleveland Meeting

CLEVELAND, June 30.—A recommendation that Great Britain's policy in its mandate over Palestine be protested to the League of Nations today was before the Zionist organization of America, holding its 33rd annual convention here.

Louis Lipsky of New York, president of the organization, charged that Great Britain has violated its trust in Palestine, and asserted that the Zionists must turn to the League of Nations with the demand that "justice be done."

One of the bitterest problems confronting the convention, Lipsky said yesterday in his presidential message, is the recent suspension by the British of Jewish migration into Palestine. He asserted that "the right accorded to the Jewish people under the mandate cannot be withdrawn or temporarily suspended for the purpose of suiting the convenience of the mandatory government."

The statement of Dr. Stephen A. Wise in New York, terming the Zionist organization "politically and morally bankrupt" again was denounced at the annual banquet last night. Rabbi James G. Heller of Cincinnati, the toastmaster, declared that "only those who love themselves more than the cause can make such attacks."

# Crippled Cub Team Lands In First Place In National League

## Determined Drive Of Chicago Crew Results In Gaining Pinnacle

(By The Associated Press)

A somewhat crippled Cub team, lacking Rogers Hornsby and occasionally a few other regulars, has been battling its way upward through the National league and finally has wrested first place from the Brooklyn Robins.

The Cubs have refused to be downed, and even losing the first game of their series to the Robins failed to daunt them. They came back to win the next three finally capturing the league lead yesterday by beating Brooklyn, 5 to 1.

The Cubs now have won 11 of

their last 13 games, starting when they played their last game in New York before returning home for a long stand. These victories have placed them a full game ahead of the Robins.

In addition they set a record for attendance in the series with Brooklyn, drawing 47,000 fans yesterday to bring the total of 140,000 for the series.

Brooklyn made it a sad celebration of Manager Wilbert Robinson's 66th birthday by getting only seven hits off Charley Root. Chicago got to Hollis Thurston in the fourth for three runs to win the game.

The St. Louis Cardinals picked up two full games on the New York Giants, winding up only one game out of third place, by winning a pair of close decisions. The scores were 3 to 2 and 5 to 4. Sylvester Johnson and Bill Hallahan held the Giants to a total of 11 hits in the two games. The Braves likewise won both ends of a double header from the Cincinnati Reds. They took the first 4 to 3 although out hit 15 to 6 and slugged out a 10 to 3 triumph in the second.

In the American league, the New York Yankees and St. Louis Browns registered the big gains as the Yankees downed the Cleveland Indians, 7 to 6, and St. Louis trounced Washington, 6 to 3. The Yanks, benefitting by the power of Charley Ruffing, gained a tie with Washington for second place and he Browns tied Detroit for fifth.

Ruffing finished the game for the Yanks and scored the deciding run himself since he came to New York. The Philadelphia Athletics defeated the Tigers by a 6 to 5 count. Jimmy Fox's 22nd home run of the year, which kept him just ahead of Lou Gehrig, who hit his 21st for the Yankees, was the big feature.

The Red Sox made it eight straight over Chicago by taking the first 10 to 6, but the White Sox reversed the decision, 2 to 1, in the second game as Ted Lyons rested Jack Russell to gain his eleventh victory of the season.

Under a new patent law in Lithuania protection dates from the time of resignation and covers a period of fifteen years.

## What The Stars Did Yesterday

(By The Associated Press)

SYLVESTER JOHNSON and BILL HALLAHAN, Cardinals—Held Giants to 11 hits in double-header as Cardinals won twice.

AL SPOHRER, Braves—Drove in three runs with homer and double. Braves beat Reds, 10-3.

CHARLES ROOT, Cubs—Pitcher was into first place, holding Robins to seven hits and fanning seven.

JIMMY REESE, Yankees—Clouted homer with bases filled to beat Indians.

Ted Lyons, Whitesox—Let Redsox down with seven hits and beat them, 2-1.

"The Time to Push Sales and Advertising" said Roger Babson, the other day, "Is when business is irresolute and inactive."

Manifestly it is agreed that business is not in a "boom" state, although better than is generally realized or appreciated and that advertising has its superlative opportunity to prove its ability when intelligently and effectively applied to act as one of the factors in the restoration of business stability and future prosperity.

Now is not the period for the hopeful waiting of the "opportunist" but one for the hard thinking, working, intelligent effort of the builder of business—constructive effort with confidence and without over-optimism.
